**Award-winning, step-by-step
reading app for 4 to 7 year-olds**

**PocketPhonics Stories
will help your child to
read their first story
book in just 10 weeks,
if they use it for 15
minutes each day.**

PocketPhonics Stories guides children through the literacy journey, beginning with teaching them their first letter sounds and ending with them having read the app's 42 storybooks by themselves.

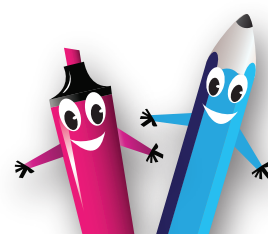

"We've reviewed very, very few apps that do as good a job at building a great instructional program for kids." Balefire Labs

Out of the 3,800 education apps they've reviewed, only four other apps have achieved an A+ rating.

"As an elementary school teacher that has been teaching reading for 10+ years, I'd say this program offers enough various exercises and approaches for a child to become a skilled reader. I do believe that if a grade level child worked 15 minutes a day on this app, they'd be able to develop the proper skills to begin reading with fluency."

Progress tracking

Teachers can monitor progress online and receive a weekly report on their pupils' progress by email.

Certificates

Certificates are emailed to teachers / parents when children reach milestones in their learning.

Easy iPad management

No need to worry about which child has which iPad. Use PocketPhonics to assign the iPad to a child and they can continue from their previous lesson.

"The systematic and sequential approach to teaching reading is wonderful! This app covers so many of the best approaches to teaching reading AND my students enjoy it! I love hearing my students say: 1). I only need three more stars to finish the level! 2) Can I do PocketPhonics, please? 3) Yes, I finished another level! They love receiving their certificates. Also, they are making excellent progress in literacy!!!" **US teacher**
